Rafiul Bari

Cybersecurity · IT audit & technology risk · Identity & access management

Brooklyn, NY rafiulbari70@gmail.com linkedin.com/in/rafiul-bari github.com/blurxy

Cybersecurity B.S. candidate and full-time Operations & Systems Associate owning configuration, access administration, and change documentation across four production platforms. Targeting IT audit, technology risk, GRC, and IAM roles.

EXPERIENCE

Plant Powered Metro New York

Jul 2025 – Present

Operations & Systems Associate

Promoted from Operations Assistant, July 2026.

- Drafted staff policy requiring 2FA and semiannual access review; reconciled rosters with live Slack and Asana APIs to identify deprovisioning candidates.
- Shipped tiered operations ticketing with director approval, scope-confirmation gates, and a full audit trail of tier and scope changes.
- Migrated 379 attendance + 176 testimonial records with email present on only 20%; escalated ambiguous matches and preserved source tables for rollback.
- Built a self-hosted signed-link service: expiring per-record tokens let approximately 130 constituents update their data without third-party processing.
- Own NeonCRM, Asana, Airtable, and Google Workspace administration, integrations, change logs, and configuration documentation.

Bari & Sons Construction Inc.

Feb 2018 – Present

Vice President

- Manage vendor and subcontractor scoping, selection, oversight, and procurement; review contracts, permits, and project documentation for accuracy and regulatory compliance.

Bari & Sons Construction Inc.

Jan 2018 – Feb 2020

IT Help Desk Support

- Managed Active Directory users, groups, and password resets; removed stale accounts.
- Triaged Windows/macOS malware, applied patches and baseline hardening, and wrote prevention knowledge-base articles.

TECHNICAL PROJECT

Automated Futures Trading System

Independent · Python · PostgreSQL/pgvector · Local LLMs

- Operate live on funded-evaluation accounts behind a kill switch, loss/drawdown circuit breakers, and a preflight gate that halts trading when any dependency is degraded.
- Enforce the broker's rulebook—contract caps, consistency limits, daily loss limits—as hard clamps at order construction.
- Apply purged and walk-forward cross-validation, transaction-cost floors, overfitting thresholds, and drift monitoring with retrain triggers.

CERTIFICATIONS

CompTIA A+	2024
Google Cybersecurity	2025
CodePath Intermediate Cybersecurity	2025
TEEX Network Assurance and Information Security Basics	2024
Cisco Packet Tracer	2024

EDUCATION

B.S. in Cybersecurity

New York City College of Technology (CUNY)

Expected December 2026

Network Security; Cryptography and Access Control; Systems Administration; HIPAA/PCI-DSS.

SKILLS

GRC & IAM

HIPAA, PCI-DSS; access reviews and recertification; least privilege; provisioning and deprovisioning; MFA; permission auditing; role mapping; change management; approval gates; SOPs; audit trails.

Security operations

Log review; incident intake/escalation; malware triage; SIEM; root-cause documentation; endpoint hardening; patch management.

Systems & tools

Active Directory; Windows, macOS, Linux; TCP/IP, DNS, DHCP, VLANs, VPNs, firewalls, IDS/IPS; Wireshark, Nmap; Python, Bash, PowerShell.

Platforms & practice

NeonCRM, Asana, Airtable, Google Workspace, Slack; stakeholder communication; vendor/third-party risk review; technical documentation; staff training.
